

Mechanical Recoiler Security

That's what we do!

Mechanical Recoiler Security

For low risk of theft items - an extremely useful range of mechanical recoilers

Retail Theft Control offers you a large range non-alarmed recoilers (also known as retractors) that keep your merchandise safe and wires from view. The recoilers easily attach to any display counter or within any fixture. Each unique recoiling system pulls out easily and then retracts smoothly into place.

Each style of recoiler (retractor) can have a different end on the cable. There is a large variety of uses, such as displaying mobile phones, digital cameras, iPods, mp3 players, tablet devices and a broad range of other merchandise. The system is so versatile and simple to use. The ends could be an adjustable lasso, that you can loop onto merchandise, a round end piece with security adhesive to attach to merchandise and the possibilities are endless. They are ideal for displaying dummy mobile phones in your mobile phone store or kiosk and can be used for displays at trade shows, exhibitions and showrooms.

Choosing the recoiler to suit your needs, follow the below easy 2 steps.

1. Choose the cable end to suit your project.
2. Choose the size of the recoiler / retractor housing - that will fit your display.

1 Choose the Cable End to suit your project.

Available Cable Ends

 #9 Collar Adj. Lasso 5/15" dia. x 3/16"	 #10 Collar Adj. Lasso 1/4" dia. x 3/16"	 #11 Swivel Snap Hooks 3/4" dia. x 2-3/4"	 #12 1" Sq. Flexible Tuit 1" sq. x 1/2"	 #13 Heavy Duty Adj. Lasso 3/4" dia. x 1-15/16"	 #14 Medium Duty Adj. Lasso 1/2" dia. x 1-1/4"

MOST POPULAR CABLE ENDS

CABLE END NO.	DESCRIPTION	POSSIBLE USES
#10	Adjustable Collar Lasso	Make a loop around various types of merchandise.
#16	Removable Tuit (32mm diameter)	The removable tuit allows you to have a small hole in your display for the recoiler cable (and end swage) to be fitted through.
#20	Flexible Round End (32mm diameter)	A flexible head that allows you to adhere to products that are not entirely flat surfaced.
#32	Round Tuit (22mm diameter)	An ideal 22mm diameter fixed tuit which adheres to merchandise. Allows a discreet and useful security solution to be installed.

2 Choose the size of the Recoiler housing to suit your project.

SK-44 Series Retractor

Mini - Most Popular Size
